

Dear Author,

Thank you for participating in the **ACM WiSe'06 Workshop Proceedings (co-located with MobiCom'06)**. This document will acquaint you to the formatting and submission instructions for **your regular full papers**, the required fields, and how and where to submit your signed ACM Copyright or Permission forms. Please read the whole document. *Submissions that do not conform to the ACM & SIG standards, specifications, guidelines, and formats will be returned to the author for corrections and/or alterations.*

Submission Deadlines and Preparation of Copy

All ACM sponsored proceedings will be included in the ACM Digital Library as well as prepared for printed publication. All papers for the conference must be submitted in an electronic format which conforms to ACM specifications. **Your electronic submission is due on or before August 11th**. The **page limit for regular full papers is set to 10 pages**.

NOTES TO ALL AUTHORS: The following sections in all of the ACM templates are **Mandatory Sections** and should be filled in properly by the authors on their actual submission:

- **Categories & Subject Descriptors** (the address for the ACM Computing Classification Scheme is: <http://www.acm.org/class/1998/>)
- **General Terms:** This section is limited to the following 16 terms: Algorithms, Management, Measurement, Documentation, Performance, Design, Economics, Reliability, Experimentation, Security, Human Factors, Standardization, Languages, Theory, Legal Aspects, Verification.
- **Keywords:** This section is your choice of terms you would like to be indexed by.
- **Title of Your Submission Should be Initial Caps --** Meaning First Letter of the Main Words Should be Made Capital Letters.

A. Files to Submit: Your actual source file is needed (.doc or .tex), to extract text and data to produce information and metadata for ACM's digital library, and the PDF file to be used for the Proceedings CD and/or the ACM digital library. We recommend using print or high-resolution settings when distilling your pdfs. **Be sure that the fonts you have used are embedded in your .PDF files.**

B. Submissions that do not conform to the ACM standards and formats will be returned to the author for corrections and/or alterations. **The page size for this publication is US Letter (8-1/2x11)**. Be sure that there are no bad page or column breaks--meaning no widows (last line of a paragraph at the top of a column). If this happens either tighten the previous column or force a line over. Section and Sub-section heads should remain with at least 2 lines of body text when near the end of a page or column.

C. For your figures or images.

(C1) Authors with color figures, authors please be aware your figures are printing in black and white (grayscale) in the body pages of the proceedings. We suggest you print your paper to a black/white printer (or black-white version) to be sure that the tones, screening, images reproduce well in black and white. Your images may appear in color on your electronic submissions and will appear in color in the ACM digital library.

(C2) We recommend images to be at least 300 or 600 dpi for quality reproduction.

(C3) We recommend for quality reproduction of rules in your graphs, tables or charts, **that the rules are at least a 0.5 pt. and black**. Finer lines and points than this will not reproduce well, even if you can

see them on your laser printed hardcopy when checked -- bear in mind that your laser printers have a far lower resolution than the imagesetters that will be used.

(C4) If your figure uses custom or any non-standard font, the characters may appear differently when printed from the digital library. Remember to check your figure creation that all fonts are embedded or included in the figure correctly.

(C5) If a figure or image is assembled from multiple images, the images must be embedded, layers flattened or grouped together properly in the file, not lined.

WORD USERS:

1. Please download the template from the ACM website:

<http://www.acm.org/sigs/pubs/proceed/template.html>.

Be sure to format your document for American Letter (8-1/2x11). Please check that your submission adheres to the set page limit for your type of submission ([see above](#)). *See the email with notification of acceptance and formatting instructions for your paper id#, and link to submit your paper.*

5. Please print the **ACM COPYRIGHT FORM** form available online at: http://www.acm.org/pubs/copyright_form.html, sign, date and **FAX to the attention of Radha Poovendran** (preferably on or before August 11th, 2006): **(206) 543-3842**

Alternatively, you can **EMAIL a scanned pdf file** of the signed and dated copyright form directly to **Krishna Sampigethaya** at the email address rkrishna@u.washington.edu (preferably on or before August 9th, 2006).

***Note:** Only one form is usually needed and can be signed by the lead or contact author. A second form may be requested from co-authors depending on any US government affiliations.

LaTeX USERS

1. Please use -- [sig-alternate class file](#) from the ACM website (<http://www.acm.org/sigs/pubs/proceed/template.html>) (this class file is a tighter format and automatically inserts the ACM copyright statement and conference info that is needed). Insert the following three lines in your .tex document after `\begin{document}` to produce the correct copyright statement and info:

```
\conferenceinfo{WiSe'06,} {September 29, 2006, Los Angeles, California, USA.}
\CopyrightYear{2006}
\crdata{1-XXXXX-XXX-X/06/0009}
```

NOTE: The ISBN number to be inserted in **XXXXX-XXX-X** will be emailed to the authors before August 9.

2. LaTeX user, please use **Type 1 fonts for your .ps file**, for help see: <http://www.acm.org/sigs/pubs/proceed/sigfaq.htm#a14>. PDF LaTeX can be used to create a pdf file for your submission. *The .ps file needs to be distilled to the ACM pdf requirements for use for printing and the ACM digital library.*

3. Please include all text (including references from the .bbl file) into one complete .tex document. We do not want a directory of multiple files, only one .tex file with all text from your submission. **We do not need the figures.** We are not recompiling your submission, only using the one (single-complete) source file to extract text and data that we need to make the metadata for ACM's digital library.

4. Name your .tex and .pdf file using your **WiSe Paper #** with the lead author's last name (example: 99898989-weaver.tex / 99898989-weaver.pdf). Be sure to format your document for American Letter (8-1/2x11). Please check that your submission adheres to the 10 page limit. *See the email with notification of acceptance and formatting instructions for your paper id#, and link to submit your paper.*

5. You need to **EMAIL** your .tex and .pdf files to rkrishna@u.washington.edu **on or before August 11th, 2006.**

6. Please print the **ACM COPYRIGHT FORM** form available online at: http://www.acm.org/pubs/copyright_form.html, sign, date and **FAX to the attention of Radha Poovendran** (preferably on or before August 9th, 2006): **(206) 543-3842**

Alternatively, you can **EMAIL a scanned pdf file** of the signed and dated copyright form directly to **Krishna Sampigethaya** at the email address rkrishna@u.washington.edu (preferably on or before August 9th, 2006).

***Note:** Only one form is usually needed and can be signed by the lead or contact author. A second form may be requested from co-authors depending on any US government affiliations.
